WILLIAM T. WALSH, CLERK

To the Court:

As a shareholder , I wish to register my objection to the proposed Johnson & Johnson Derivative Litigation for the following reason: although the mailing describing the litigation is dated July 16, 2012, I did not receive it until yesterday, September 18. Since this was beyond the September 14 deadline stated, it would seem to automatically dismiss any objection I might make. I see this as a fraud committed on behalf of the supposed Plaintiff's Counsel, who stand to make a great deal of money in the pusuit of what seems to me, a questionable settlement.

Kindly take my objection under advisement despite its apparent lateness. It was through no fault of my own.

Sincerely,

Merton S. Rothman
